SUMMARY

Passionate Software Engineer with a strong foundation in Java, Object-Oriented Programming, Data Structures, and full-stack web development. Skilled in building backend applications and REST APIs using Spring Boot, Hibernate, JDBC, and SQL. Passionate about problem solving and writing clean, maintainable, and scalable code.

TECHNICAL SKILLS

Programming Languages: Java, C

Web Technologies: HTML, CSS, JavaScript, Bootstrap

Frameworks & Libraries: Spring, Spring Boot, Hibernate, JDBC

Databases: SQL, MySQL

Tools & Platforms: Git, GitHub, REST APIs

Concepts: Data Structures, OOPS, DBMS, Web Security (OWASP)

EDUCATION

K.S.R. College of Engineering

Tiruchengode, Namakkal, Tamil Nadu

Bachelor of Engineering (B.E.), Mechanical Engineering — CGPA: 7.8 / 10

2022 – 2026

Government Hr. Sec. School, Minnapalayam

Erode, Tamil Nadu

Class XII, State Board — 63.8% | Class X, State Board — 60%

PROJECTS

Banking Management System (On Development) | *Java, Spring Boot, Hibernate, REST API, MySQL*

- Built a full-stack banking application using **Spring Boot**, **Hibernate**, and **MySQL** supporting account creation, deposits, withdrawals, fund transfers, and transaction history.
- Developed and consumed **RESTful APIs** for account and transaction operations, applying OOP, SOLID, and DRY principles for clean, maintainable code.
- Implemented exception handling, balance validation, and role-based authentication (Admin / Customer), and wrote **JUnit** test cases with **Mockito** to validate business logic.

Smart Inventory Prediction System | *Java, Spring Boot, Hibernate, JDBC, MySQL, REST API* Live Demo

- Developed a full-stack inventory management application with **Spring Boot** REST APIs, **Hibernate**, and a **MySQL** database to track stock levels, sales, and supplier records.
- Implemented demand-prediction and automated reorder logic that analyzes historical usage to forecast low-stock items and trigger restock alerts.
- Built CRUD operations, role-based access control, and an interactive dashboard using HTML, CSS, and JavaScript to visualize inventory trends.

Personal Portfolio Website | *HTML, CSS, JavaScript, Bootstrap*

Live Demo

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and achievements across multiple screen sizes.
- Deployed the website on **GitHub Pages** for public access.

INTERNSHIP

SAN Technovation

July 2024

Design Intern

- Worked with AutoCAD and Creo for 2D drafting and part modeling, strengthening analytical and structured problem-solving skills.
